EARTHTEAM
Protecting the Planet

BUILDING A BETTER WORLD

WHAT WE ARE

EarthTeam is global clinic improving public and ecosystem health through the world's top professionals in human and animal medicine, wildlife protection, regenerative agriculture, and community development.

Our team comes from 100+ frontline organizations from across the globe that have created proven solutions that protect our planet from pandemics, species loss, climate change, habitat destruction, and associated poverty.

Instead of working in silos, we collaborate through the holistic approach called "Planetary Health" because these threats share common drivers, and point to common solutions:

- **Protecting Wildlife**
- **Protecting Natural Habitats**
- **Reforming Agriculture**

OUR VISION

A world reset, with species increasing, temperatures decreasing, natural areas expanding, and communities thriving sustainably and safe from outbreaks.

WHAT WE DO

We help corporations accomplish their CSR and ESG goals in two ways:

Directing your investments to our promising projects and delivering evidence-based accounting and deliverables to our client within deadline

Deploying our experts to develop or improve new projects for our client.

Examples of our Solutions that corporations can partner with, or replicate with our help:

Poverty reduction programs resulting in greener landscapes, climate mitigation and species recovery.

Ranger programs that reduce poaching and habitat destruction, while delivering educational and vocational services to local communities.

Task forces that protect communities, species and ecosystems from trafficking.

Regenerative agriculture and agroforestry programs that build healthy, sustainable ecosystems and food supply systems.

PARTNERING

Your company can partner with existing EarthTeam projects, or hire our experts to set up or improve a similar successful project for you.

PROMOTING

EarthTeam also promotes children and adult education by supporting independent artists, co-producing their books and music. EarthTeam TV's YouTube channel highlights our solutions.

Our global pool of expert practitioners can tailor and help implement solutions everywhere.

EARTHTEAM IS A HYBRID

We are a global alliance of organizations and experts, hosted by Freeland, a civil society organization, and a registered company of the same name.
